Subject: RE: Survey questions

John and Ron,

Thank you for providing me with the survey questions. Per your request, attached are the names addresses and phone numbers for the people Cabot was supplying with water back in late 2010. To the best of my knowledge Cabot is no longer providing alternative water to anyone in Dimock.

I appreciate EPA's willingness to work with PA DEP as we are always evaluating groundwater quality in Dimock PA. Staff from DEP's Northwest, Northcentral and Northeast Regional Offices have spent a considerable amount of time in Dimock over the past several years and are very familiar with many of the residents there. As such, we do not believe it would be an efficient use of our staff's limited time to accompany EPA during your survey. However, to the extent EPA

has questions regarding drilling activity, spill remediation efforts, water well sampling and enforcement actions we have taken in Dimock, our staff will certainly make themselves available. Because these efforts involved staff from three different regional offices there isn't a single field person I can direct you to but I can be your point of contact and put you in touch with the right people.

Thanks again for reaching out to me today.

Scott R. Perry | Acting Deputy Secretary
Office of Oil and Gas Management
Department of Environmental Protection
Rachel Carson State Office Building

Subject: Survey questions

Scott: see attached for the questions our teams are expected to use when go door-to-door.

Let me know if you have any questions. Also, please try to get back to me as soon as you can - preferably today or no later than early tomorrow morning - regarding the State joining us in this effort.

Could send me the information on the addresses you have of the residents in the area - especially the ones that have had some alternate water supplied or well sampling done by Cabot. Do you know who is still being supplied alternate water, if any? Also, I would appreciate a point of contact for our field folks to use in coordinating their efforts.

You can contact me at the numbers below. If you can't get me for some reason, you could also try Jon Capacasa on his cell:
